

# Kip and the Squiggledoodle

by Em Cosh

Thanks for downloading this

## Create a Creature Art Activity Pack

It has

CREATURES!

It has

DRAWING!

It has

FUN!

Just bring your imagination,  
some colouring things and lets get started!!

I created the **Squiggledoodle** by combining a **peacock** and a **flamingo** and just a **pinch** of imagination.

+

=

**I love** these characters, and think making up  
**imaginary animals**  
to hang out with is the most fun.

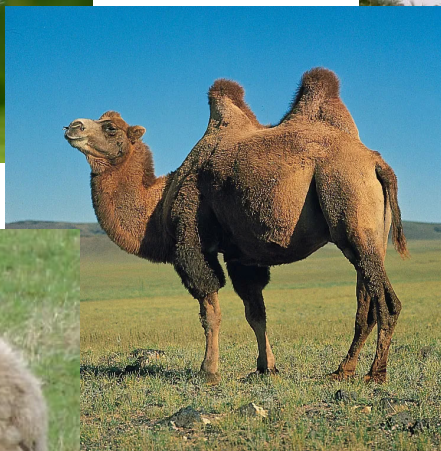

Let's make some up together!

Kip loves to read, and loves to play music and loves to fly!  
So his perfect friend is a **Squiggledoodle**.

What do you **love to do**?  
When you've made your new creature friend,  
can you draw a picture of you and your new friend doing this together?

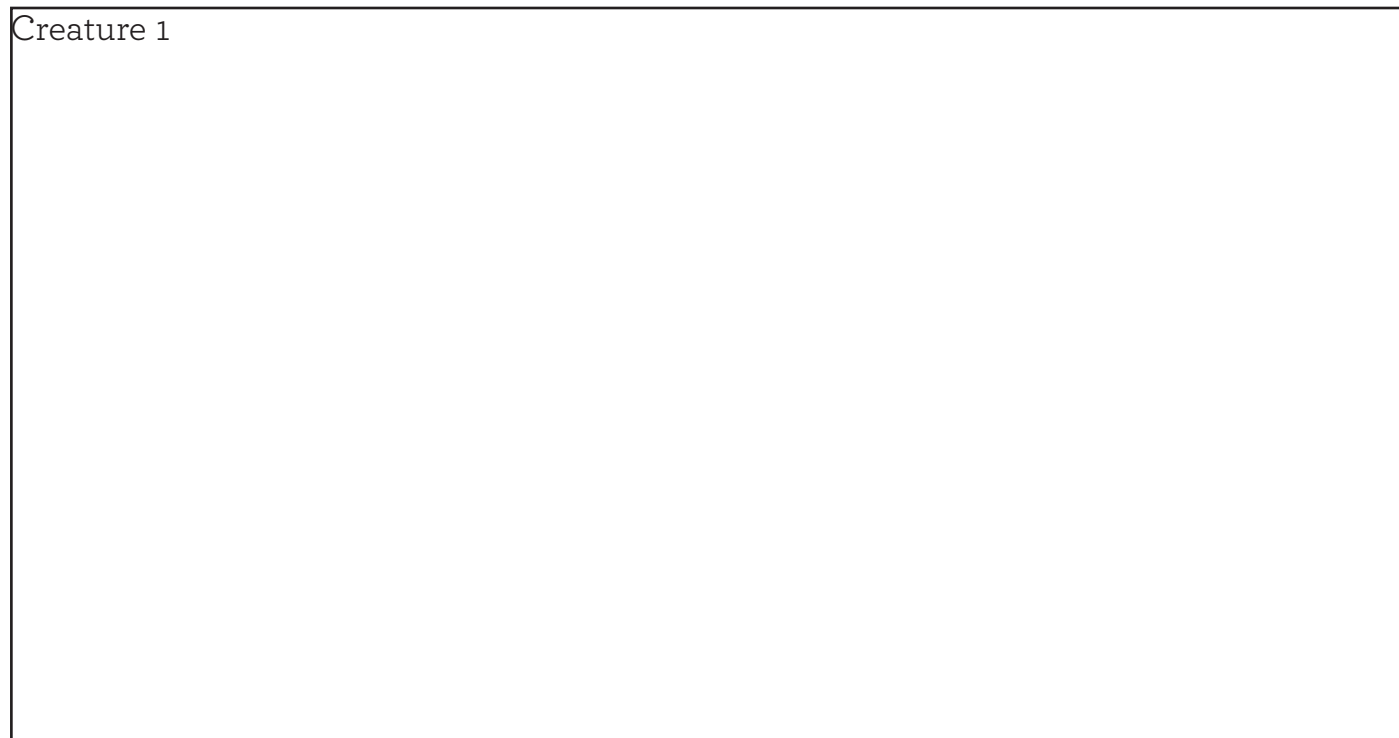

Let's start by thinking about two creatures you love.  
Maybe they're below? Can you name them all?

Which ones look most exciting to you? Pick two either from the earlier images, or select your own. Next, draw one creature in each box below.

Colour them any way you like. Don't be limited by real life colours!

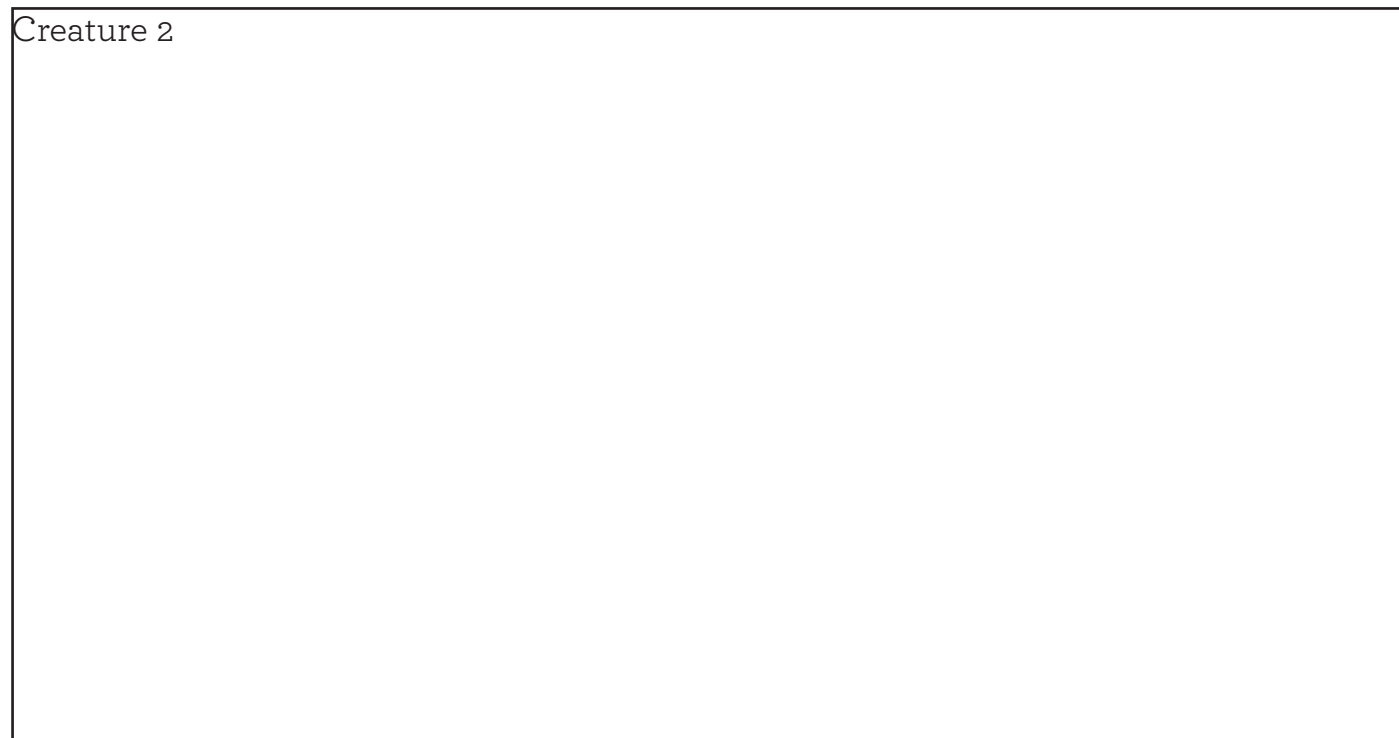

Creature 1

My favourite thing about this creature is \_\_\_\_\_

\_\_\_\_\_

Creature 2

My favourite thing about this creature is \_\_\_\_\_

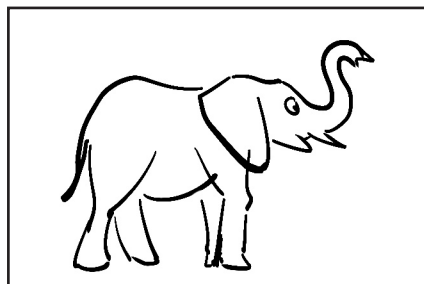

\_\_\_\_\_

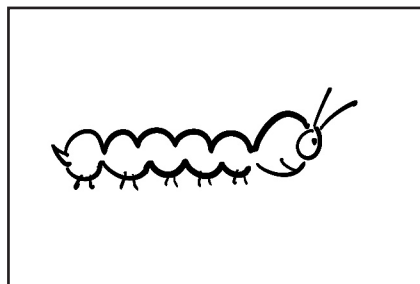

Now comes the exciting part! We're going to look at our two creatures and see how to take parts from each of them to make something totally new!

You can combine them in any way you like. Here are some ideas on how.

Bits and pieces

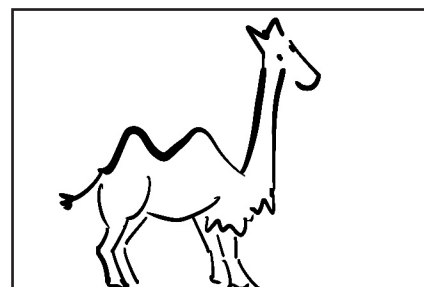

+

Bits and pieces

=

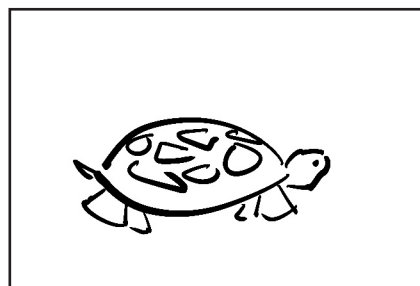

Feel free to add things too! Does your new friend need wings? An extra pair of eyes? Something else? Go ahead!
