Colouring sheet

Bea finds a magical **greenhouse**...

'Inside it is **HUGE** and packed with plants.

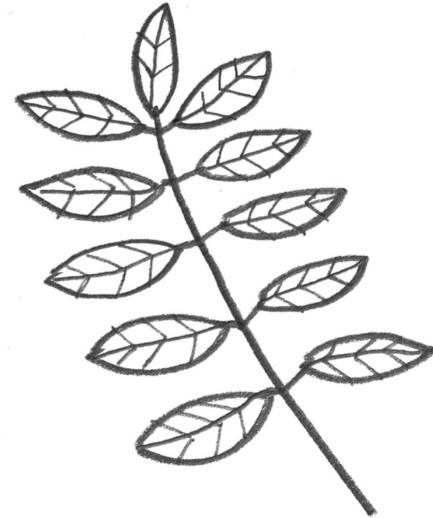

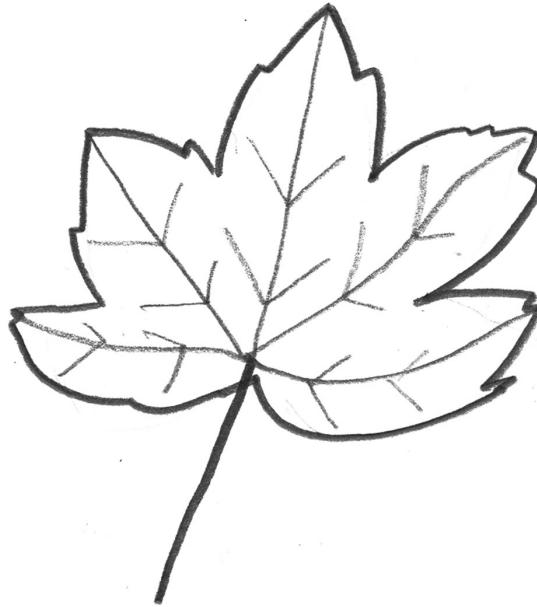

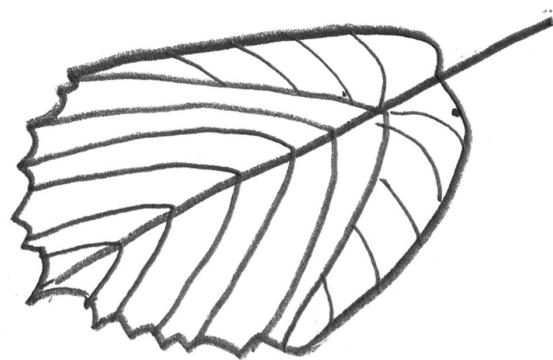

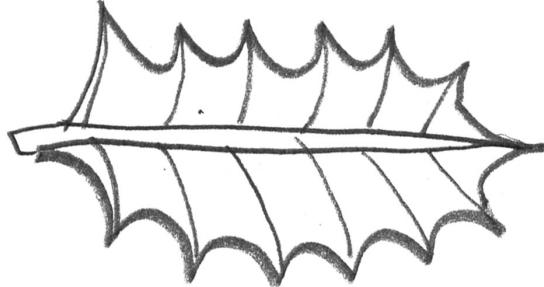

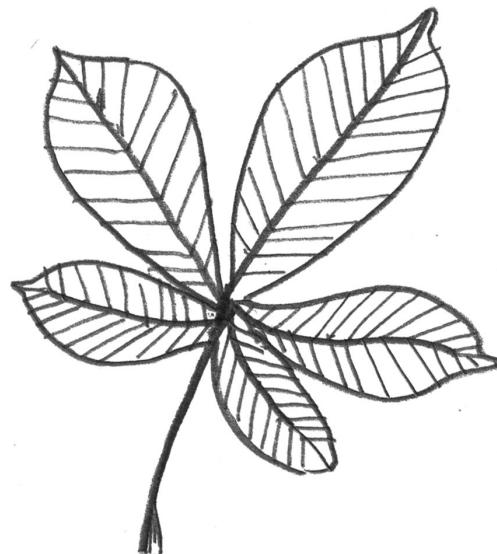

There are plants of all
SIZES, all shapes and
all shades of green!'

Add your own colours to the scene.

Leaf identification

Leaves come in many **shapes** and **SIZES**.

Can you identify these leaves?
Turn the sheet sideways for the answers.

Clockwise from the top right: horse chestnut, hazel, ash, sycamore, holly, oak.

Colour in the giant

The Green Giant isn't
looking quite himself!

Add some leaves and colours to make him **green** again.

Magic seeds

These pots have magic seeds in them –
they can grow into any kind of plant you'd like!

Imagine your ideal plants and add them to the pots.

What shape are the leaves?

What colour are they?

Do they have flowers, or berries, or fruit?
