

OUR QUICK GUIDE TO USING AUTHORFY

'The best thing about Authorfy is that it's completely flexible. Teachers in our school use it in creative writing classes, focus groups, as morning warm-up activities, and even at home with their own children.' - Mrs King, Literacy Coordinator

Whether you're using Authorfy at home or in your school, you can use it as often as you like, in any order, and with one of our suggested activities, or one of your own. To get the most out of the Authorfy resources, we recommend following the below order, but as always, it can be adapted to suit your individual needs.

Recommended Order

- 1) Select an author's video and enjoy watching their masterclass.
- 2) Select the 'Author Reading' option on the author's page and watch them read an extract from their book.
- 3) Select Activity Pack 1 or Activity Pack 2 from the author's page and work through the worksheets, writing prompts and challenges.
- 4) Download 'Additional Resources' to view a list of Writing Challenges and Sentence Starters or view 'Extras' for display material, bonus video footage or extra activities.
- 5) Once a creative writing task has been completed, upload the story to the 'Your Work' page (2 pieces can be uploaded per author masterclass). Each term we'll randomly select uploaded stories to send to the 'Authors of the Term' so that they can send their feedback and advice to the students.

NOW REPEAT THIS WITH THE NEXT AUTHOR MASTERCLASS..
